

Get to know CVS Healthspire™ Life Sciences Solutions

Accelerate innovation and advance research for a healthier, more inclusive tomorrow.

CVS Healthspire Life Sciences Solutions harnesses the power of real-world evidence (RWE), expansive longitudinal data of 200M+ lives and advanced analytics. We amplify the patient's voice to offer strategic intelligence that empowers health care decisions and propels clinical research into innovation.

Patient-centric, end-to-end RWE solutions and services:

RWE Intelligence:

Research-driven insights into health care utilization, diseases and conditions.

Safety Surveillance Research:

Strategic collaboration for comprehensive safety and efficacy monitoring and evaluations.

Patient-Reported Outcomes:

Survey-driven results with patient touchpoints to engage and generate insights.

Pragmatic Studies:

Real-world, post-market research to study therapy, drug or device effectiveness.

Patient Registry:

Expertly designed and managed registries for enhanced clinical understanding and advanced insights.

Clinical Trial Recruitment:

Insights-driven patient engagement and accelerated recruitment for phase III/IV clinical trials.

CVS Healthspire Life Sciences Solutions is a brand used for clinical research services and is part of the CVS Health® family of companies.
